Date

26th March, 2022

Section

KM004

Course Title

MVC Programming (INT221)

Introduction

This is a fully dynamic project on Content Management System (CMS). It is a website where user can log in/Register with email address and post their blogs in their respective accounts which the whole world can see. Users can also upload/Attach pictures related to their posts. This website also comes with **Admin System** where admins can ban or delete Users or their post if any mature content is posted.

Project Info

Technology Used:

- HTML
- CSS
- Bootstrap
- JavaScript
- Node.JS
- PHP
- Laravel (PHP Framework)
- Git & GitHub

ScreenShots

Admin Panel

The screenshot shows a web browser at the URL `codehacking.dev/admin/users`. The page has a sidebar on the left with a search bar and a menu containing: Dashboard, Users (selected), All Users, Create User, Posts, Categories, Media, Charts, Tables, Forms, UI Elements, and Multi-Level Dropdown. The main content area is titled "Users" and displays a table with the following data:

Id	Name	Email	Role	Status	Created	Updated
1	Edwin Diaz	edwin@codingfaculty.com	User has no role	Not Active	1 hour ago	1 hour ago
2	Jose	jose@codingfaculty.com	User has no role	Not Active	28 minutes ago	28 minutes ago
3	Maria	maria@codingfaculty.com	subscriber	Not Active	24 minutes ago	24 minutes ago
4	Peter	peter@codingfaculty.com	subscriber	Active	23 minutes ago	23 minutes ago
